This booklet is a summary of Ford of Canada's Health Care Benefits Program (the "Program"). These plans are designed to provide health care benefits for salaried employees included in a bargaining unit, retirees from the salaried bargaining unit, hourly employees, hourly retired employees, surviving spouses and dependents.

It is to your advantage to know what benefits are available to you and your eligible dependents. Therefore, it is suggested that you read this booklet carefully. This booklet describes the Program, however, the terms and conditions are set forth in the Collective Agreement(s) between the Company and the Union. The Collective Agreement(s) will govern where there is any discrepancy between the language stated in this booklet and that in such Agreement(s).

The Health Care Benefits Program including: Vision Care, Hearing Aid, Dental Care, Prescription Drug, Out-of-Province Hospital-Medical Care, Long Term Care Facility Benefits, Prosthetic Appliances and Durable Medical Equipment and Paramedical coverage are funded by Ford of Canada and administered by Green Shield Canada.

Benefits become applicable to you on the date specified in the Collective Agreement(s).

This booklet describes the principal components of the Program, however, it is impossible to cover every situation that may arise. If you need further information, ask your Personnel Services Representative or your Union Benefit Representative, who will be glad to be of assistance to you.

Benefits described in this book are based on eligibility of the covered individual to the applicable provincial plan in the province of residence. Individuals who choose to move their principle residence outside of Canada will not retain the same levels of coverage described in this booklet. PROVINCIAL HEALTH INSURANCE PLAN

The provincial health insurance plan provides a wide range of basic benefits for physicians' services and hospital care in standard ward accommodations. Benefits under a provincial plan are available only to individuals who are residents of that province. Information concerning such benefits is provided in separate booklets published by the provincial health insurance plan. Premiums required to maintain coverage in B.C. are paid on behalf of employees by the Company and are considered a taxable benefit to the employee. Provincial Health care premiums were eliminated in Alberta effective January 1, 2009.

HEALTHCARE CONTRIBUTION

Effective January 1, 2010, a monthly healthcare contribution is required to be paid by all employees, retired employees and surviving spouses. The required healthcare contribution is as follows:

"OUT-OF-PROVINCE"

HOSPITAL, SURGICAL AND MEDICAL EXPENSE BENEFITS

GENERAL DESCRIPTION OF BENEFITS AND CONDITIONS

When you or your eligible dependents receive medical-surgical or hospital services outside of your province of residence and the fees for such services are in excess of the amounts allowed by your provincial hospital and medical-surgical plan, this plan will cover the difference between your provincial health plan allowance and the cost of the actual services provided.

Included in the benefit is emergency air ambulance coverage (including a medical attendant's and accompanying spouse's fare) which is provided from any location in North America directly to a hospital in the patient's province of residence, provided the Provincial Government Health Insurance Plan makes a payment towards the cost. For land ambulance see #2 on page 17.

This benefit is subject to the following conditions and limitations:

- 1) The medical-surgical or hospital services must be incurred as a result of accidental injury or emergency or referral by the patient's attending physician.
- 2) A fee must be scheduled in the applicable provincial health plan for the particular medical-surgical service provided.
- 3) A benefit must be provided under the applicable provincial health plan for the particular hospital services.
- 4) Excess medical-surgical or hospital fees will only be allowed as covered services to the extent that they are reasonable and customary in the area where covered services are received, as determined by the plan administrator.
- 5) The plan administrator shall make payment towards "out-of-province" medical-surgical and hospital services only subsequent to payment by the applicable provincial health plan in the patient's province of residence. Such subsequent payment is contingent upon prior payment by the provincial health plan toward any item of covered service for which payment is requested.

Payment guarantees for hospital, surgical and medical expenses incurred under this plan will be provided by Green Shield through Green Shield Travel Assistance (World Access Canada), in addition to special assistance regarding facilitating claims payment and funds transfers. Under some circumstances, World Access Canada will pay out-of-province hospital, surgical, medical expenses, to the provider or to yourself, if the expenses result in financial hardship, subject to proper claims submission. A call to Travel Assistance should be made immediately after the emergency 1-800-936-6226 USA or 1-519-742-3556 elsewhere.

World Access Canada, in serious medical emergencies, will include: i) an assistance specialist to ensure the patient is receiving the best possible medical treatment and/or; ii) if the patient's in-hospital treatment will continue beyond 5 days, a World Access physician, in consultation with the treating physician and the patient's family physician, will arrange for the patient and spouse to be repatriated by air or land ambulance to a hospital in the patient's province. Up to \$1,000 will be allowed to return the patient's personal use motor vehicle to the patient's residence or nearest rental agency, as applicable. (See Travel Assistance brochure for further details.)

HOW TO CLAIM BENEFITS

When you incur covered expenses which have not been billed directly to your Provincial Health Insurance Plan or plan administrator, you should complete a claim form which may be obtained from the plan administrator. Attach the following required information to the claim form:

- 1) Detailed statement clearly stating the service received and the fee incurred for each service.
- 2) Copies of applicable provincial plan allowance.
- 3) If a referral, a letter from your attending physician in your province of residence stating the reason for your referral to a physician outside your province of residence.

Forward the completed claim form and other required information to the plan administrator.

PRESCRIPTION DRUG BENEFITS

DESCRIPTION OF COVERED EXPENSES

Your plan covers any substance listed in the Green Shield Canada Drug Formulary applicable to Ford. New prescription drug products are reviewed for inclusion into the Drug Formulary, based on their therapeutic value, life saving ability, and cost effectiveness. These include drugs, injectibles, insulin and diabetic supplies (see Durable Medical Equipment), which can only be purchased on the prescription of a medical doctor for the personal use of the subscriber or eligible dependents under the plan. Eligible drugs may be confirmed with the plan administrator or with your pharmacist.

Certain drugs will only be considered a benefit under this program if the patient meets certain specific conditions – "Conditional Drugs". In order to be considered for benefit, your physician will be required to complete a form detailing your conditions including clinical evidence. This, in turn, must be submitted to the administrator for review and assessment of eligibility. After submission to the administrator, you or your dependent will be notified within 48 hours. The pharmacy may opt to assess the completed form and, if eligible, submit directly on your or your dependent's behalf.

NOTE: This Plan does not cover patent or proprietary drugs and medicines, vitamins and vitamin preparations (unless injected) or drugs paid for by any other agency. Certain drugs, such as smoking cessation drugs, erectile dysfunction drugs and drugs for the treatment of infertility are subject to lifetime or annual maximums. Please check with the administrator.

HOW THE PLAN WORKS – Effective January 1, 2009 the plan administrator will reimburse the full cost of all eligible drug bills for each person covered by the plan, less a co-payment of 10% of the total allowed amount paid by the plan for each prescription dispensed by a pharmacist, doctor or hospital.

- (1) when a drug prescribed for a covered person has a generic equivalent (regardless of interchangeability), the maximum benefit under the plan for such drug will be limited to the cost of the lowest priced generic drug, less the co-pay stated above, and;
- (2) If the covered person chooses the more costly drug, in lieu of the lowest priced generic drug, such person will be responsible for the difference in cost. Where there is documented evidence of an adverse reaction to a generic drug and Green Shield Canada is provided with a copy of the "Canadian Adverse Drug Reaction Monitoring Program" form completed by the physician that has been submitted to Health Canada the brand name drug will be reviewed for eligibility.
- (3) The 10% co-payment will be applied until the annual out-of-pocket maximums identified below are reached:

Calendar Year	Out-of-pocket Maximum
2009	\$250.00
2010	\$270.00
2011	\$290.00
2012	\$310.00

Once the annual out-of-pocket maximum (per family) is reached, the plan will pay 100% of the total allowed amount paid by the plan for eligible prescription drugs for the remainder of the calendar year. The covered person will still be required to pay for any dispensing fee charged by the pharmacy in excess of \$9.00 per prescription.

Reimbursement may be obtained by either of the following methods:

- If you deal with an "agreement" pharmacy, you pay the pharmacy 10% of the total allowed amount paid by the plan for each eligible prescription dispensed. The pharmacist will bill the plan administrator directly for the balance. In the event the agreement between the pharmacy and the carrier provides for a maximum allowable dispensing fee in excess of \$9.00, the covered person will be responsible for the excess. Or ...

- You may claim payment by submitting a claim form to the plan administrator and attaching your receipted bills. These bills must be official prescription receipts and clearly show the drug name, drug identification number (DIN) and quantity of the drug, the prescription number, the cost, the date of purchase and the patient's name. The covered person will be responsible for any additional charges assessed by the non-participating pharmacy over and above those paid by the plan, including any dispensing fee charge over \$9.00. The net eligible amount of your claim less the 10% co-payment will be sent to the subscriber by the plan administrator (Green Shield Canada).

NOTE: In the event that a brand name prescription drug becomes available at a cost less than the lowest price generic drug, the brand name prescription drug will be the eligible benefit.

Prescription drug benefits for residents of Ontario who are age 65 or older are available under the Ontario Drug Benefit Program. Residents who also have the Prescription Drug Plan are required to present their Ontario Drug Benefit (ODB) Card to their pharmacist. This will ensure that the pharmacist bills the ODB Program. However, if certain drug benefits are not available under the Ontario Drug Benefit Program, then they may be claimed in accordance with the terms of the Prescription Drug Plan. Most provinces provide similar coverage for seniors. The prescription drug plan 10% co-payment will also apply to retirees and ODB recipients up to the annual maximum identified in (3) above.

Extended Supply

Generally, no more than a 100-day supply of drugs can be dispensed at one time. For retirees travelling outside of Canada on holiday, a special request for additional supplies may be made. Contact the Green Shield Customer Service Centre for assistance. Please advise at least two weeks prior to your anticipated departure.

Note: Only quantities of 30 days are allowed when a covered drug has been prescribed for the first time; this includes all DIN's and brands of the covered drug.

COORDINATION OF BENEFITS

Under this provision your Health Care Benefits program provides benefits in full, or a reduced amount, which, when added to the benefits payable and the cash value of services provided by any other plan, will equal 100% of allowable expenses incurred by yourself or your eligible dependents. This provision also applies when both spouses are employed by the Company and are eligible for program benefits.

SUBROGATION

In the event of any payment for services made by the administrator under your Health Care Benefits Program, such administrator shall acquire all the employee's or dependent's rights of recovery as a result of settlement or judgment brought against any person or organization, except against insurers or policies issued in the name of the employee or dependent.
